

Dan Nott, Wilder, VT.

I am writing in support of the relicensing of the Wilder Dam if the pedestrian pathway can be opened across the dam, allowing travel between Wilder and Lebanon. As a resident of the Wilder neighborhood, I believe both communities would benefit greatly from this route. This pathway would allow walkable cross-state access to parks and recreation, including the Kilowat Parks in Wilder and Boston Lot trail network in Lebanon. The path is currently blocked by a fence. I'd be so excited and grateful to be able to have this pathway opened!
