

John Haffner, White River Junction, VT.  
Dear Secretary Reese,

As a resident of Hartford, VT I am writing in support of the comments filed by Town Manager on behalf of our Selectboard on April 2nd with the subject "Re: FERC No. 1892, Wilder Dam, Great River Hydro LLC Town of Hartford, Vermont comments on Great River Hydro LLC's Application for a New License"

I am particularly supportive of requiring Great River Hydro to reopen the the access between Vermont and New Hampshire. This access should be prioritized for bike and pedestrian travel. I am also specifically in support of requiring Great River Hydro to fund a Kilowatt Park Master Plan.

Thank you for receiving this comments.

John
