Thank you very much, Maryalice. Lots to have compiled!

Just these corrections noted:

p. 1, Water Resources, Study 6, "Question – are you correlating the location of any monitors with municipal wastewater discharge sites?": The questioner was Sharon Francis, I believe.

p. 3, Terrestrial, Study 27: I asked about and you confirmed that the rare mist-community just below Wilder Dam, documented in the City of Lebanon's 2010 Phase 2 Natural Resource Inventory (NRI) by Dr. Rick van de Poll, would be included in Study 27. You or another of the Transcanada team further noted that Lebanon NRI had been received and included among the documents considered in the re-licensing process (or words to that effect).

p. 5, Declined Studies, Tom Christopher's first comment: Wasn't Mr. Christopher referring to the Bellows Falls Dam, not Wilder?

p. 9. Attendance List: I spell my name without an "h" (Nicole).

See you all Thursday & Friday.

Respectfully submitted,

Nicole

Subject: TransCanada May 13 Meeting Notes Available

Dear Stakeholder,

The meeting notes from TransCanada's first study plan meeting held on May 13th are available on the relicensing website at <http://www.transcanada-relicensing.com/download/Documents/Proposed%20Study%20Plan/Proposed%20Study%20Plan%20Meeting%20Notes%202013%2005%2013.docx> (in the folder - Overview\documents\proposed study plan).

If you have comments on what was recorded in the notes, please either respond to me by email or download a copy of the document, provide any edits in the document and email that back to me.

Thank you for your interest,
