**Re: Great River Hydro, LLC, Re-Filing of ILP Study Report 21 Supplement to
Include Appendix B
Project Nos. P-1892-026, 1855-045, and 1904-073**

Dear Secretary Bose:

Great River Hydro, LLC (“Great River Hydro”) is the owner and licensee of the Wilder Hydroelectric Project (FERC No. 1892), the Bellows Falls Hydroelectric Project (FERC No. 1855), and the Vernon Hydroelectric Project (FERC No. 1904). On October 31, 2012, TransCanada (the previous licensee) initiated the Integrated Licensing Process (“ILP”) by filing with the Federal Energy Regulatory Commission (“FERC” or “Commission”) its Notice of Intent to seek new licenses for each project, along with a separate Pre-Application Document for each project. The current licenses for these projects each expire on April 30, 2019.

On February 9, 2018, Great River Hydro filed a supplemental study report for ILP Study 21 (American Shad Telemetry Study), reporting on 2017 fieldwork and assessments. Inadvertently, Appendix B, was missing from the original filing. This filing represents a re-submittal of the Study 21 Report including the previously missing Appendix B.

Kimberly D. Bose, Secretary
