**Re: TransCanada Hydro Northeast Inc.'s February 4, 2017 Study Report Revisions and Supplemental Data
Project Nos. 1892-026, 1855-045, and 1904-073**

Dear Secretary Bose:

TransCanada Hydro Northeast Inc. ("TransCanada") is the owner and licensee of the Wilder Hydroelectric Project (FERC No. 1892), the Bellows Falls Hydroelectric Project (FERC No. 1855), and the Vernon Hydroelectric Project (FERC No. 1904). On October 31, 2012, TransCanada initiated the Integrated Licensing Process ("ILP") by filing with the Federal Energy Regulatory Commission ("FERC" or "Commission") its Notice of Intent to seek new licenses for each project, along with a separate Pre-Application Document for each project. The current licenses for these projects each expire on April 30, 2019.

With this filing, TransCanada submits a revised study report for ILP Study 2/3 – Riverbank Transect and Riverbank Erosion Studies. This report revision incorporates additional data analysis and results related to effects of flow velocity and shear stress; additional data presentation in response to stakeholder comments on the initial study report filed August 1, 2016 and in FERC's November 29, 2016 Study Plan Determination; and adds clarifications as summarized in TransCanada's October 31, 2016 Response to Comments on the initial study report.

Kimberly D. Bose, Secretary
