- Filing Desc: Comment of O. Ross McIntyre TransCanada Historical Erosion Study Wilder Dam under P-1892.
- Submission Date/Time: 3/29/2016 11:21:48 AM
- Filed Date: 3/29/2016 11:21:48 AM

We feel the operation of the Wilder Dam is responsible for the severe erosion occurring along our banks and causing a significant financial burden to the taxpayers of Lyme.

The Select board strongly requests that Trans Canada conduct the quantitative studies to demonstrate what the impact is of the rise and fall of the river on the river banks. If it is demonstrated that the operation of the dam is the cause of the erosion, Trans Canada should be held financially responsible for the damage and change the way the dam is operated to decrease further damage.

Sincerely,

Susan J. MacKenzie, Chair
Select Board Town of Lyme

Patricia G. Jenks

Charles J. Smith
